

# Yiwen (Emelina) Wang

Software Engineer | Student Leader | AnitaB & GHC Volunteer | Girls Who Code College Loop President | RTC Member  
206-631-1192 | [Emelina.NEU@gmail.com](mailto:Emelina.NEU@gmail.com) | [linkedin.com/in/emelinaw/](https://www.linkedin.com/in/emelinaw/) | [github.com/YiwenW312](https://github.com/YiwenW312) | E-portfolio: [yiwenw312.github.io/](https://yiwenw312.github.io/)

## EDUCATION

### Northeastern University, Seattle, WA

Jan 2023 – Dec 2025

Master of Science in Computer Science | GPA 4.0/4.0 | Exceptional Student Representative

## TECHNICAL SKILLS

**Programming & Frameworks:** Java, JavaScript, Python, C#, C, Rust, Spring, React, Node.js, Express

**Cloud & Databases:** Cloud Computing, AWS, Azure, MySQL, MongoDB, Database Management System (DBMS)

**Development Tools & APIs:** Git, GitHub, RESTful APIs, FastAPI, Docker, Kubernetes, CI/CD

**Software Engineering:** Data Structures & Algorithms, Distributed Systems, Object-Oriented Design, Software Development Lifecycle (SDLC), Agile, **Backend** Development

## EXPERIENCE

### Incoming Software Development Intern

Start May 5, 2025

Amazon, Seattle, US

### Software Engineer Intern

Aug 2024 – Dec 2024

Veelongs Corporation, Remote, US

- Developed and optimizing web interfaces for displaying collateral debt position (CDP) data from the SUI blockchain with **RUST** and **MOVE**, Collaborating in the full software development lifecycle with the team.

### Software Engineer Intern

Jun - Aug 2024

Uplift NW – Seattle, WA

- Developed data input system and produced visualizations to provide actionable business insights; Collaborated with a cross-functional team to implement a scalable and efficient **full-stack web application** using **JavaScript**, my design of the input system increased data processing speed by **25%** while ensuring scalability and user-friendliness.

### Founder, President and Software Engineer

Dec 2023 – Feb 2025

Tech@Crossroads, Northeastern University – Seattle, WA

- Founded and led the **student organization** with about 300 members with tech projects, LeetCode Sessions and events.
- Initiated** and **led** the team, developing a **full-stack inclusive publishing platform**, using **JavaScript**, with **MongoDB** as the database management. **Improved and refactored** the **backend** by boosting the runtime efficiency approximately **70%** and **optimized** code efficiency by **60%** through applying the object-oriented principle.

### Software Engineer Intern

Jun - Aug 2023

Zhejiang Golden Webking Co., Ltd. – Remote

- Developed a loyalty program management system using **Java** and **Spring Boot**, enhanced customer engagement by **30%**.
- Seamlessly integrated the system with the e-commerce platform, using **RESTful APIs** and **Hibernate**, to track customer purchases, allocate points, and facilitate reward redemption during checkout, optimizing the user satisfaction by **35%**.

## PROJECTS

### Backend Python Web Application, [Demo](#), [GitHub](#)

Spring 2024

- Developed an online payment platform prototype using **Python**, **MySQL**, **RESTful APIs**, and **FASTAPI**. Leveraged **AWS** for deployment and **Docker** for containerization to ensure scalable and secure architecture.
- Implemented comprehensive features** like card validation, user authentication, account creation, balance calculation, and history tracking to Improved overall payment processing functionality.

### Backend Java Application with GUI, [Demo](#), [GitHub](#)

Spring 2023

- Developed a Gesture-based Musical Notation Editor using **Java**, **MVC** design, and **Swing**, improved user experience by allowing intuitive gesture-based input for musical symbols. Engineered a **shape trainer** to recognize and interpret mouse gestures, enabling users to draw diverse symbols like bar lines with ease.

## HACKATHON & AWARD

**Top 3 Team & Most Data-driven Solution Award** in Northeastern University Seattle Campus 2024 Needle in a Hack-Stack Hackathon

**2025 Outstanding Network Student Award in Seattle** from Northeastern University

Located in Seattle, Open to relocate | Earliest Availability to Work: Dec 23, 2025
